PROFESSIONAL SUMMARY

Data, analytics and enterprise systems professional with 11+ years across higher education, banking and energy. Builds trusted data for decision-makers: standardizing and quality-controlling regulated data, delivering executive Power BI dashboards and ETL pipelines, and turning data into planning and forecasting insight for C-level stakeholders. Has led teams of approx. 8 to 10 juniors across SAP and Microsoft Dynamics 365 programs, from requirements and UAT through rollout. MBA (Finance & Banking), Azure Data Scientist Associate (DP-100), and currently completing TOGAF 10.

CORE COMPETENCIES

Data Governance & Quality: data standardization, regulatory data accuracy, SOPs and standards, compliance reporting (AML, CFT, FATCA/CRS, GoAML), TOGAF 10 (in progress)

Analytics & BI: Power BI (DAX, M Query), QlikView, SQL, Python (Pandas, NumPy), advanced Excel, KPI dashboards, ML and statistical techniques

Data Management & Integration: ETL pipeline design, data modeling, data warehousing, REST API integration, Bloomberg and Refinitiv feeds

Leadership & Delivery: team leadership and mentoring, C-level engagement, Agile/Scrum (JIRA, Confluence), UAT and change management, multi-project delivery

Platforms: Microsoft Azure, Microsoft Dynamics 365, SAP (custom T-codes, ABAP coordination)

PROFESSIONAL EXPERIENCE

Independent IT Solutions & Enterprise Architecture Consultant **01/2026 – Present**
Self-Employed | Berlin, Germany

- Designed a centralized Power BI data model (DAX, M Query) for an energy-sector client and delivered executive dashboards in 6 weeks, giving leadership live KPI visibility and saving 10+ hours of weekly reporting.
- Architected Python ETL pipelines with REST API ingestion for a logistics client, reducing data processing error rates by 40%.
- Documented As-Is/To-Be processes (BPMN) and architecture specifications for a fintech client, reducing manual data handoffs by 25% and ensuring alignment with European compliance standards.

Digital Transformation Lead **04/2025 – 08/2025**
Institute of Business Administration (IBA) | Pakistan (fixed-term project engagement)

- Built Python ETL pipelines integrating Bloomberg and Refinitiv financial data feeds, reducing reporting latency by 50%.
- Delivered a real-time executive analytics platform in Power BI within 8 weeks, giving C-level stakeholders live KPI visibility across financial datasets.
- Led cross-functional delivery across IT and finance and authored functional architecture specifications aligned to institutional reporting requirements.

Business Analyst **08/2022 – 03/2025**
Institute of Business Administration (IBA) | Pakistan

- Led and mentored a team of approx. 10 juniors, while working directly with university leadership on requirements, priorities and delivery.
- Delivered approx. €160K of IT solutions across Microsoft Dynamics 365 HR, University, Facility and Power Management systems, with successful rollout of all modules.
- Captured 120+ user stories and produced solution blueprints, BPMN as-is/to-be models, functional requirements and integration specifications.
- Ran Agile/Scrum delivery in JIRA (sprint planning, backlog grooming, retrospectives) to keep multi-month programs aligned with stakeholders.

Data Scientist (Remote Consulting, Part-time) **07/2022 – 07/2025**
Deific | United Kingdom (concurrent with IBA role)

- Delivered client-facing analytics engagements end-to-end and remotely supervised on-site UK delivery teams across multiple industry verticals.
- Built Power BI dashboards providing real-time KPI visibility, translating business intelligence requirements into scalable reporting.

Business Process Re-Engineering Initiative Lead & SAP Customization **07/2019 – 01/2021**

K-Electric Ltd. | Pakistan (independent consulting 01/2021 – 07/2022)

- Led a team of approx. 8 juniors; designed Advanced Excel and QlikView training frameworks and mentored 8 finance trainees in data analytics and BI tooling.
- Designed and delivered two custom SAP T-codes (RO, SRC) from requirements through ABAP coordination, reducing revenue recovery costs by 80% and lifting recoveries by 30%.
- Architected and submitted an approx. €25M write-off portfolio solution to the regulatory authority, managing the full technical and compliance documentation lifecycle.
- Led end-to-end SAP delivery: BRD authoring, ABAP team coordination, UAT management and post-deployment support.

Regulatory IT Projects Lead **06/2017 – 06/2019**

Dubai Islamic Bank Ltd. | Pakistan

- Led GoAML CTR/STR implementation with IT, eliminating all manual regulatory submissions.
- Directed FATCA/CRS reporting automation via the AEOI portal to the Federal Board of Revenue.
- Developed a multi-user Excel model for high-risk account profiling (PEPs, Trusts, NGOs, NPOs).

Data Analyst – Compliance Systems **01/2017 – 05/2017**

HabibMetro Bank Ltd. | Pakistan

- Built a multi-user Excel model for law enforcement query management, automating letter drafting, status tracking and senior management reporting.

Fraud Analyst – AML & Core Banking Systems **11/2014 – 01/2017**

Albaraka Bank Ltd. | Pakistan

- Completed KYC data standardization in the Auto iBanker-II ERP across the core banking system.
- Implemented the PIBAS AML solution, automating compliance workflows bank-wide, and authored the SOP manual for law enforcement agency correspondence.

EDUCATION

Master of Business Administration (Finance & Banking) | KASBIT, Karachi, Pakistan | CGPA 3.28 / 4.0 03/2013

Bachelor of Commerce (B. Com.) | Karachi University, Pakistan 06/2010
